

Using the Bentley Learn Server

What is the Bentley Learn Server?

The Bentley Learn Server contains online course options for Bentley applications, including InRoads and MicroStation. Design and CADD users previously accessed this training through the Enterprise Training Subscription (ETS) interface, but this has been incorporated into the integrated Bentley Learn Server for a one-stop approach to e-learning.

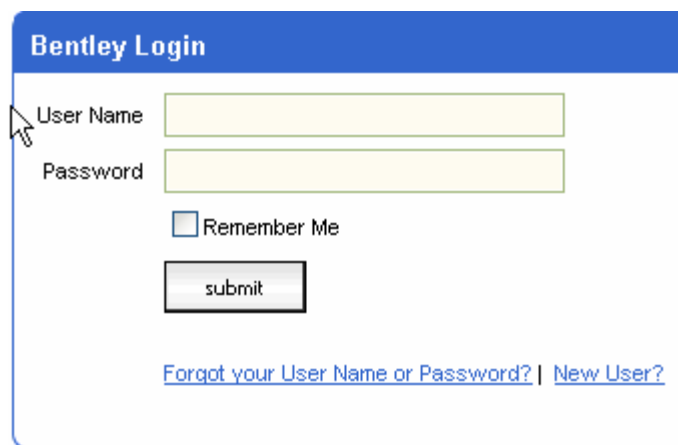

You can view self-paced lectures from this site. **Self-paced lectures** and **instructor-led distance learning offerings** are hour-long multimedia presentations that highlight process in InRoads, such as how to edit DTM surfaces or create roadway design templates.

How to access the Bentley Learn Server

You can access the online training at:

<http://lms.bentley.com/US/desktopdefault.aspx>

Log into the Bentley Learn server from the login prompt on the top left corner of your screen, using your Select ID. Contact your regional CAE coordinator for information about obtaining a Bentley Select ID.

A screenshot of the Bentley Login web form. The form has a blue header bar with the text "Bentley Login". Below the header, there are two text input fields: "User Name" and "Password". To the left of the "User Name" field is a mouse cursor icon. Below the "Password" field is a checkbox labeled "Remember Me". Below the checkbox is a "submit" button. At the bottom of the form, there are two links: "Forgot your User Name or Password?" and "New User?".

Catalogs

| Id | Name | Description |
|----|---|--|
| 2 | Plant | Instructor-led Classroom and Distance Learning Offerings |
| 3 | Building | Instructor-led Classroom and Distance Learning Offerings |
| 4 | Civil | Instructor-led Classroom and Distance Learning Offerings |
| 5 | MicroStation | Instructor-led Classroom and Distance Learning Offerings |
| 6 | Geospatial | Instructor-led Classroom and Distance Learning Offerings |
| 8 | Programming | Instructor-led Classroom and Distance Learning Offerings |
| 9 | Visualization | Instructor-led Classroom and Distance Learning Offerings |
| 40 | OnDemand eLearning - Building | Self-paced online training |
| 41 | OnDemand eLearning - Civil | Self-paced online training |
| 42 | OnDemand eLearning - MicroStation | Self-paced online training |
| 43 | OnDemand eLearning - Geospatial | Self-paced online training |
| 44 | OnDemand eLearning - Content Management & Publish | Self-paced online training |
| 45 | OnDemand eLearning - Programming | Self-paced online training |
| 46 | OnDemand eLearning - Visualization | Self-paced online training |
| 47 | OnDemand eLearning - Plant | Self-paced online training |

This brings up a list of the training options. You can search for specific videos using the Search tool or scroll through the multi-page lecture list.

Click on the course title that you are interested in to display information about that particular video. Click on the Register link. The Bentley Learn Server will then generate an automatic email confirmation notice to you.

You can view this lecture after you receive the registration notice from the Bentley Institute. To access this training, select the Currently Registered Training tab:

OnDemand eLearning

All students will have varying educational backgrounds and skill sets. The archived Bentley self-paced training videos allow students to customize their training for their individual needs. The following list of videos contains the WSDOT-recommended viewing order. This will get you started with the LEARN Server training method, and provide a basic knowledge of InRoads for design applications. Cut and paste these titles into the Bentley Search Engine to quickly find these courses in the training catalog.

Bentley InRoads 2004 Edition: Basic Road Workflow

This class is best viewed before the WSDOT InRoads Production Level Design course.

MicroStation V8 for Civil Engineers

This class is useful for Engineers without a MicroStation background.

Everything You Wanted To Know About COGO

Bentley InRoads 2004 Edition: Basic Alignments

Bentley InRoads 2004 Edition: Edit Surface Commands

Bentley InRoads 2004 Edition: Merging Surfaces

Creating the InRoads Template

InRoads Volumetric Workflows

The complete list of videos includes specialized subjects such as Survey, Structures, and Storm & Sanitary. Additional training should be based on the user's specific duties and needs. Please note that InRoads 2004 edition is WSDOT's production version. Bentley videos titled InRoads 8.7, GEOPAK or Bentley MX pertain to other InRoads versions and design software applications.

Live lectures

You can sign up for live lectures through the Bentley Learn Server. These are scheduled hour-long modules that provide information about InRoads processes. Live lectures are a good option if you want to participate in the question and answer session at the end of the lecture, while archived videos are useful for viewing at your convenience.

To sign up for a live lecture, select the **Civil Instructor-led Classroom and Distance Learning Offerings** link. This brings up a list of scheduled classes. WSDOT Bentley users may access the Distance Learning: Lecture course types. The catalog shows the scheduled date and the 1 hour length for these lectures.
